Synchronized Cheering and Team Spirit in Japanese High School Volleyball

Aoi Matsuzaki (2546089)

Department of Design and Data Science

①Background

Previous studies:

-Supporting effect to performance (Romdhani et al., 2024)

-Importance of the cheering group (Seto, 2023)

However...

Unique characteristics of volleyball cheering group ⤵

② Research question

How do cheering styles differ between fellow students and player's families in Japanese high school volleyball?

③ Method

Watching a video on YouTube

Video :

All Japan Volleyball High School Championship 2024

People:

Narashino high school volleyball club's cheering group

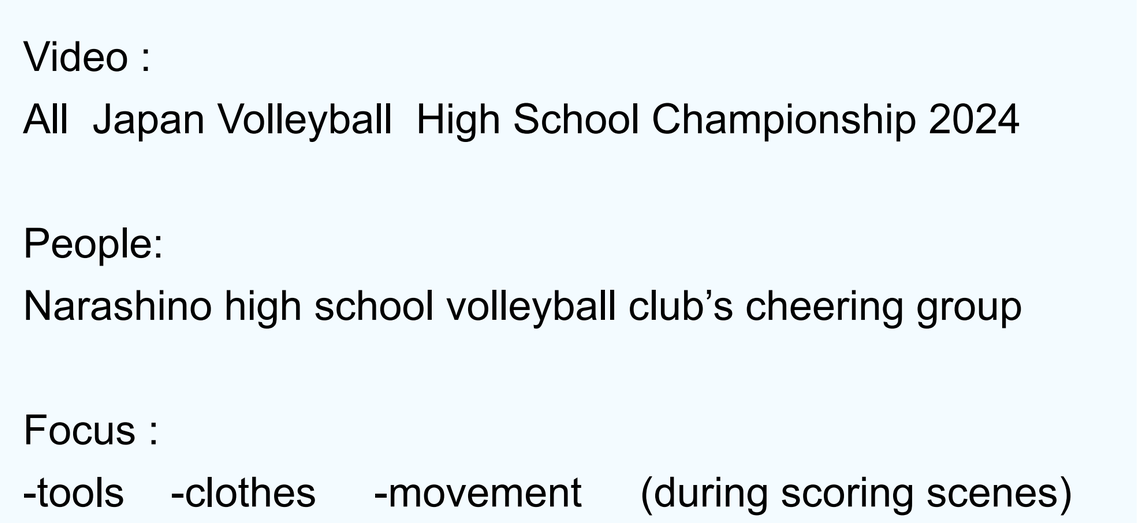

Focus :

-tools -clothes -movement (during scoring scenes)

④-1 Analysis

Clothing:

Fellow students Players' families

④-2 Analysis

Movement :

People	Movement
Brass bands	-Conductor in each row -music decided at a fixed time -**synchronized performance**
Cheer dance club	-various choreography -**synchronized performance**
Families and others	-various cheering call -**synchronized hand clapping**

Team spirit

④-3 Analysis

Differences :

fellow students families

High five

Only hand clapping

⑤ Discussion

Overall:

-team spirit

-cooperative

By age:

Student → **a full body celebration**

Families (parents and adult) → **a quite celebration**

→ **Characteristics of Japanese people**

Future research:

Does emotional expression change across development in Japanese people?
